Objective

To get an opportunity that allows me to showcase my skills and contribute to the
company's growth.
EXPERIENCE

Experience

- **-**   22/09/2022 - 22/09/2022
  FRESHER
  -

Education

- **Don Bosco Matriculation School**   02/06/2024
  Computer Science

Skill

- AWS DeVops engineering
- Python
- Data science
- Communication

Projects

- **MINOR PROJECT - Churn Prediction in Telecom Industry using Logistic Regression**
  All data sets & repositories are available at Kaggle & Github
  I'm using git and github to manage my codes and this is common case for many of you I
  guess.
  I want to use my git repository in Kaggle competitions as well.
  My original question is: How can I use my code in github in Kaggle Notebook?
  I googled that there are some practical ways to do this:
  use utility script. (this is an official function but It's not good for large repository.)
  download source from github repository, upload it as a private dataset, and add in your
  notebooks.
  encode codes and decode in notebooks
- **MAJOR PROJECT - EMPLOYEE PROMOTIOIN & STARTUP CASE STUDY**
  Create a classification problem model using logistic decision trees random
  forest and also thr eda for the same for Employee Promotion. EDA of the
  dataset depicting the different analysis which one found and perform
  operations on the data set like cleaning and encoding etc for Startup case.
  Perform a full exploratory data analysis on the datset, find whatever insights
  you can, also check is data is alright for data preprocessing and also create
  visualizations

Achievement & Awards

- Throwball district 1 St in senior catagory (2017)

Language

- English
- Tamil

Interests

- I'm interested to learn new features based on AWS DeVops

Personal Details

- Date of Birth : 02/06/2003
- Marital Status : Samson Jebaraj
- Nationality   : Samson Jebaraj
